

Task 3: Create a Serverless Function (AWS Lambda)

Live Deliverable Link

- API Gateway Public Endpoint: <https://zhzyju3749.execute-api.ap-southeast-2.amazonaws.com/default/Alfido-Task3>

Screen Shot

A screenshot of a REST client interface. The top bar shows a status icon and the text 'pretty-print'. The main area displays a JSON response: {"status": "Success", "internName": "Manoj Kumar", "message": "Hello from my Serverless AWS Lambda Function!", "task": "Cloud Computing Task 3"}.

```
pretty-print ☐  
{"status": "Success", "internName": "Manoj Kumar", "message": "Hello from my Serverless AWS Lambda Function!", "task": "Cloud Computing Task 3"}
```
